Deeply concerned by the continued worsening of the economic situation in many developing countries, particularly the least developed countries, as evidenced by the significant decline in living conditions, the persistence and increase of widespread poverty in a large number of those countries and the decline of their main social and economic indicators,

Bearing in mind that certain developing countries have been able to achieve some economic and social progress,

Having considered the draft framework for the 1993 report on the world social situation contained in the report of the Secretary-General, 1/

1. Notes that in preparation of the draft framework for the 1993 report on the world social situation efforts have been made to reorient it in accordance with the requests of the Council and the General Assembly;

2. Reaffirms the request set forth in paragraph 4 of Council resolution 1989/72 that, in preparing the next report on the world social situation, the Secretary-General give high priority to an analysis of the main indicators of social progress and standards of living and make a comprehensive analysis of the main causes and circumstances that explain negative trends in those indicators, and reaffirms also that chapters devoted to the study of specific social problems must be related to global economic and social situations, taking into account both national and international conditions;

3. Requests the Secretary-General, in preparing the 1993 report, to also take into account the intrinsic relationship between economic growth and social development and to analyse in depth the economic problems of the developing countries and the impact of those problems on the world social situation;

4. Requests the Secretary-General to submit to the General Assembly at its forty-eighth session, through the Economic and Social Council, the 1993 report on the world social situation.
